Step-by-Step Setup Instructions

Step 1: Connect Fire TV Stick to Your TV

- Plug the **Amazon Fire TV Stick 4K** into an available HDMI port on your TV.
- If necessary, use the HDMI extender cable for better positioning.

Step 2: Power Up the Fire TV Stick

- Connect **one end** of the USB power cable into the **Amazon Fire TV Stick 4K**.
- Connect the **other end** into the **power adapter**.
- Plug the **power adapter** into a nearby electrical outlet.

Step 3: Select the Correct HDMI Input

- Use your TV remote to turn on your TV.
- Press **Input** or **Source** and select the HDMI port where you plugged in your **Amazon Fire TV Stick 4K**.
- Wait for the Fire TV Stick interface to load.
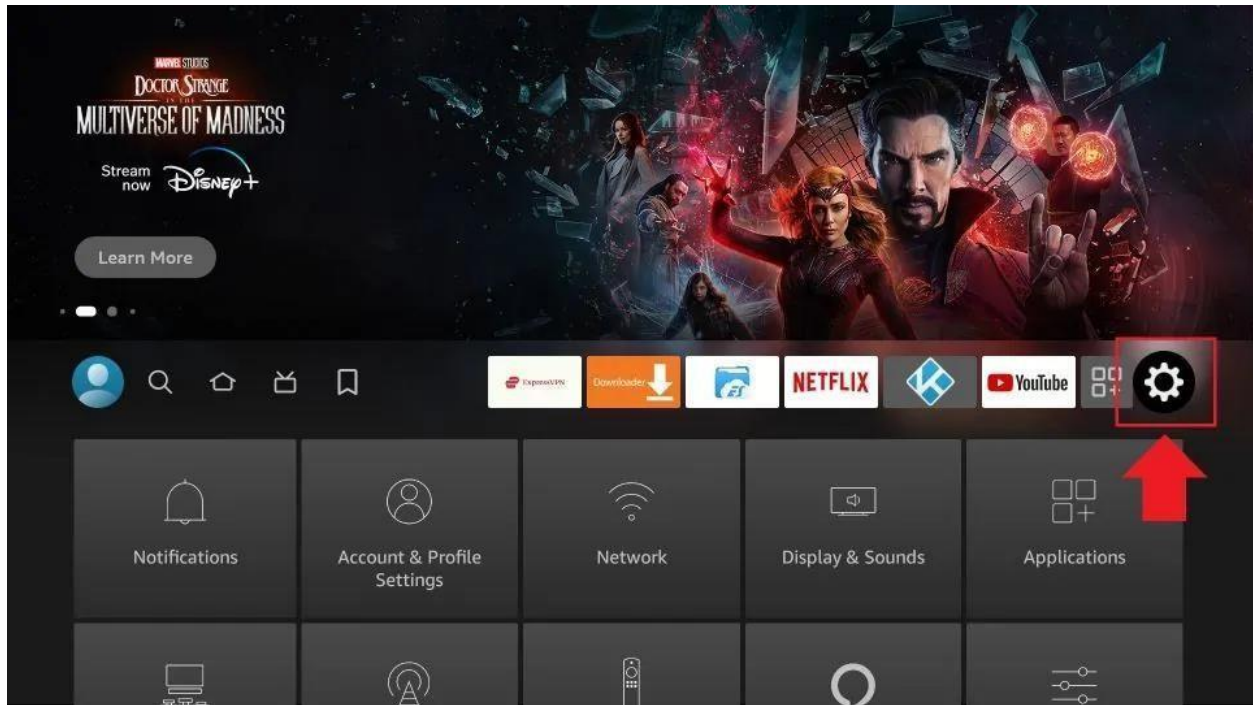

Step 4: Set Up the Fire Stick Remote

- Insert the batteries into the **Alexa Voice Remote**.
- The remote should **pair automatically**. If not, press and hold the **Home** button for **10 seconds**.
- Review your remote's key buttons:
  - o **Navigation buttons** (outer ring)
  - o **Select/OK button** (center of the ring)
  - o **Play/Pause button** (below the ring)

Step 5: Fire TV Stick Initial Setup

- Choose your **preferred language** using the navigation buttons and press **Select**.
- Connect to your **Wi-Fi network** and enter your Wi-Fi password.
- Register your **Amazon Fire TV Stick 4K**:
  - o Sign in to an **existing Amazon account** or create a new one.
- **Parental Controls:** Set this to **NO** for now. You can enable it later if needed.
- **Pair the Fire TV Stick Remote with Your TV** for volume control.
- Press **Play/Pause** to start the installation process.

Once installed, follow these steps to download the IPTV app on your Firestick.
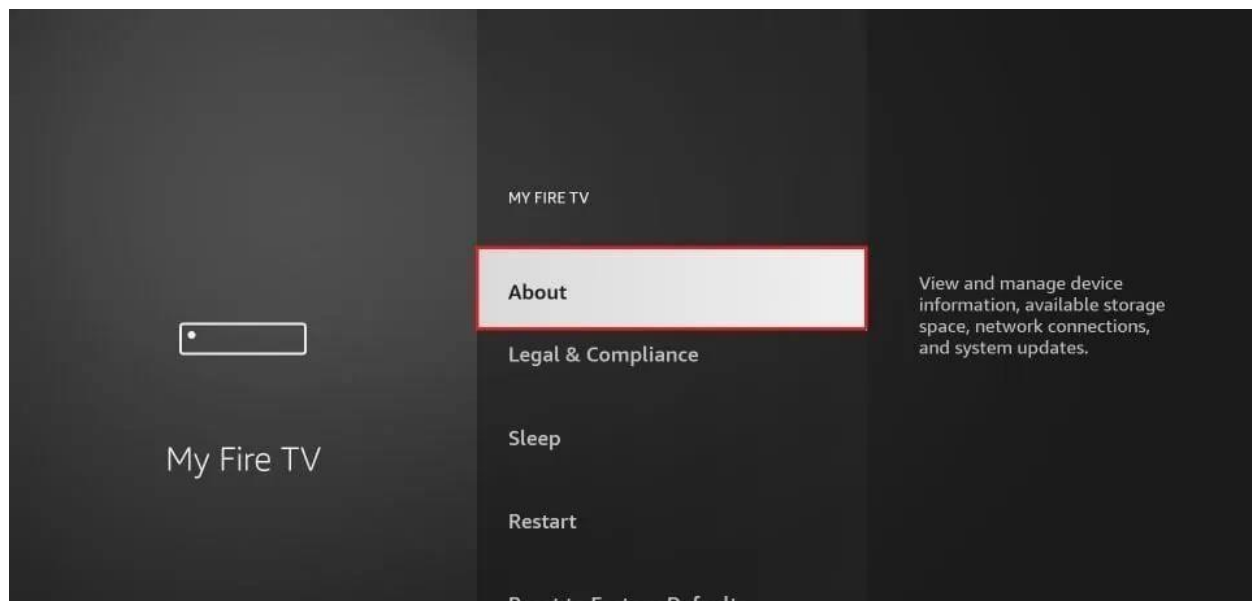

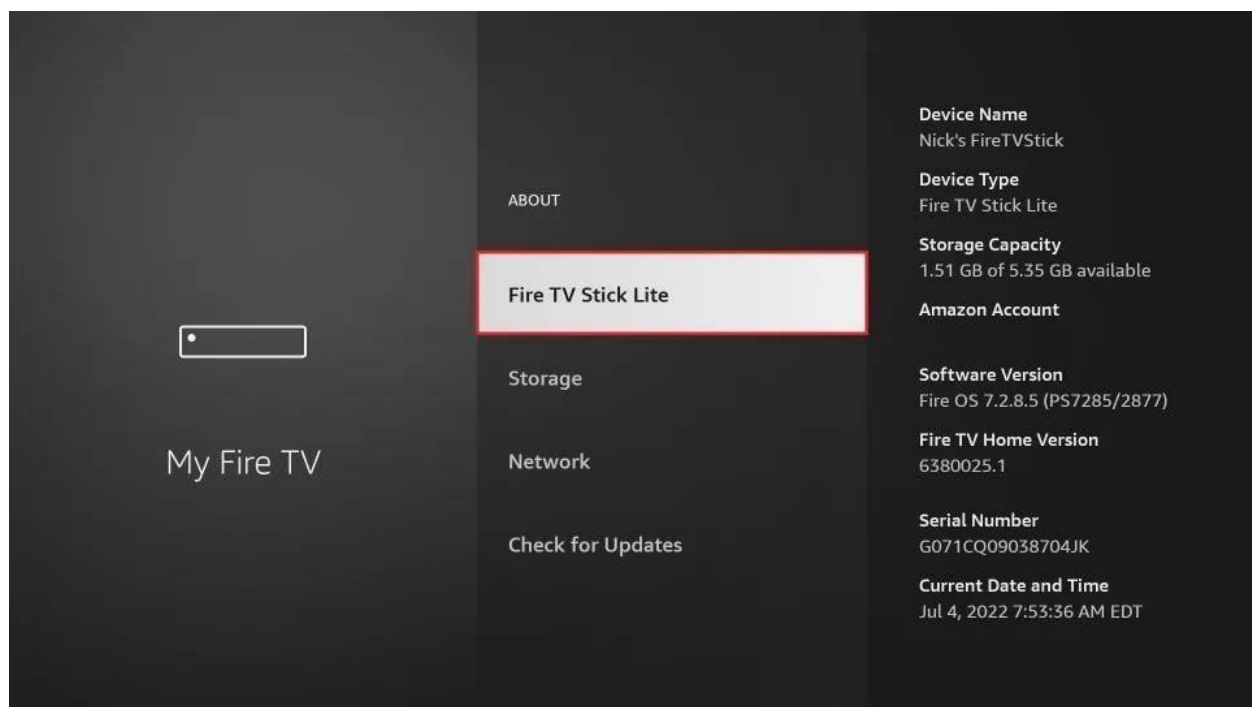

1. **Select Fire Stick Settings**
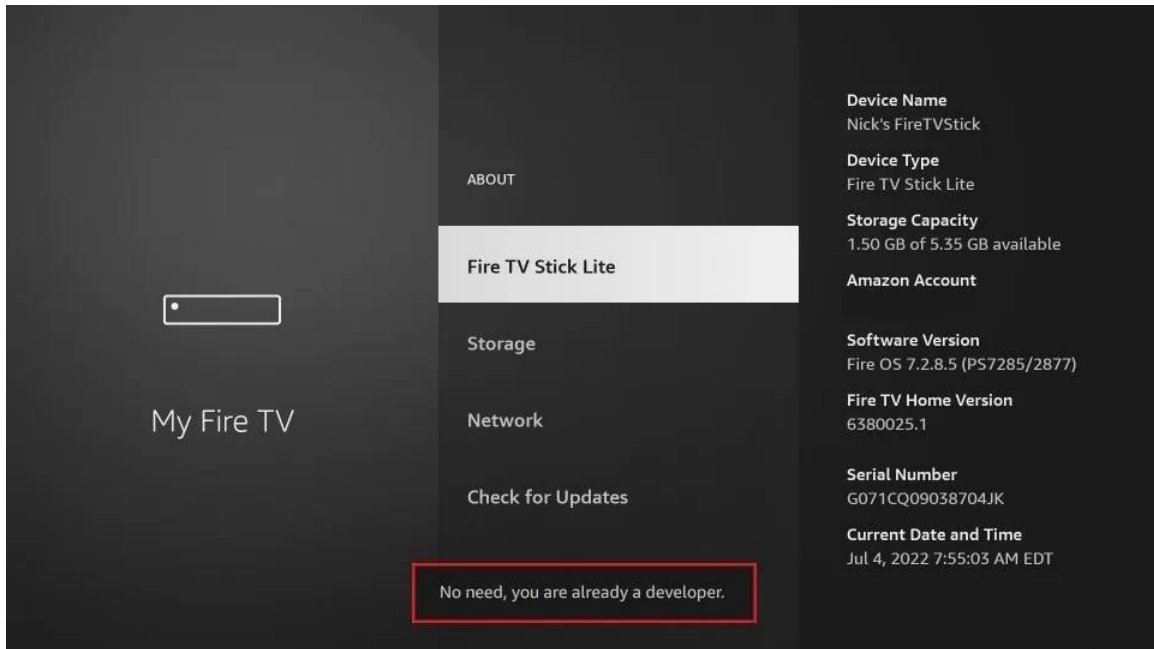

2. **Click My Fire TV**

3. **Click About (only if you DO NOT see Developer Options on this screen)**
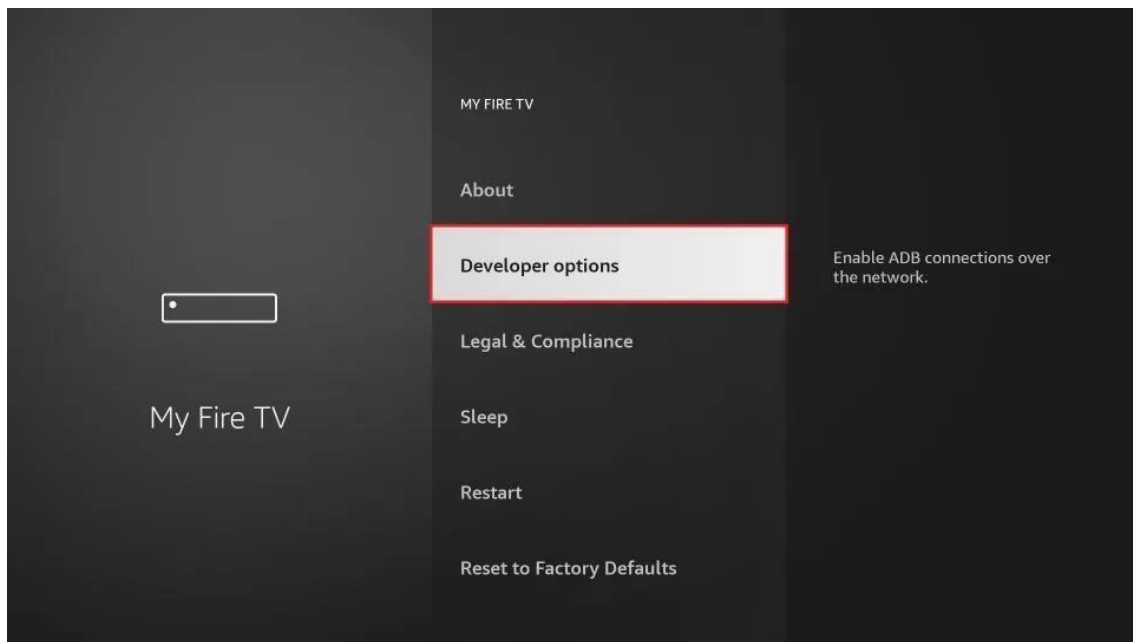

4. Click on your Fire TV Stick quickly 7 times.

5. You will see a notification at the bottom saying No need, you are already a developer. That's it, you have enabled Developer Options.
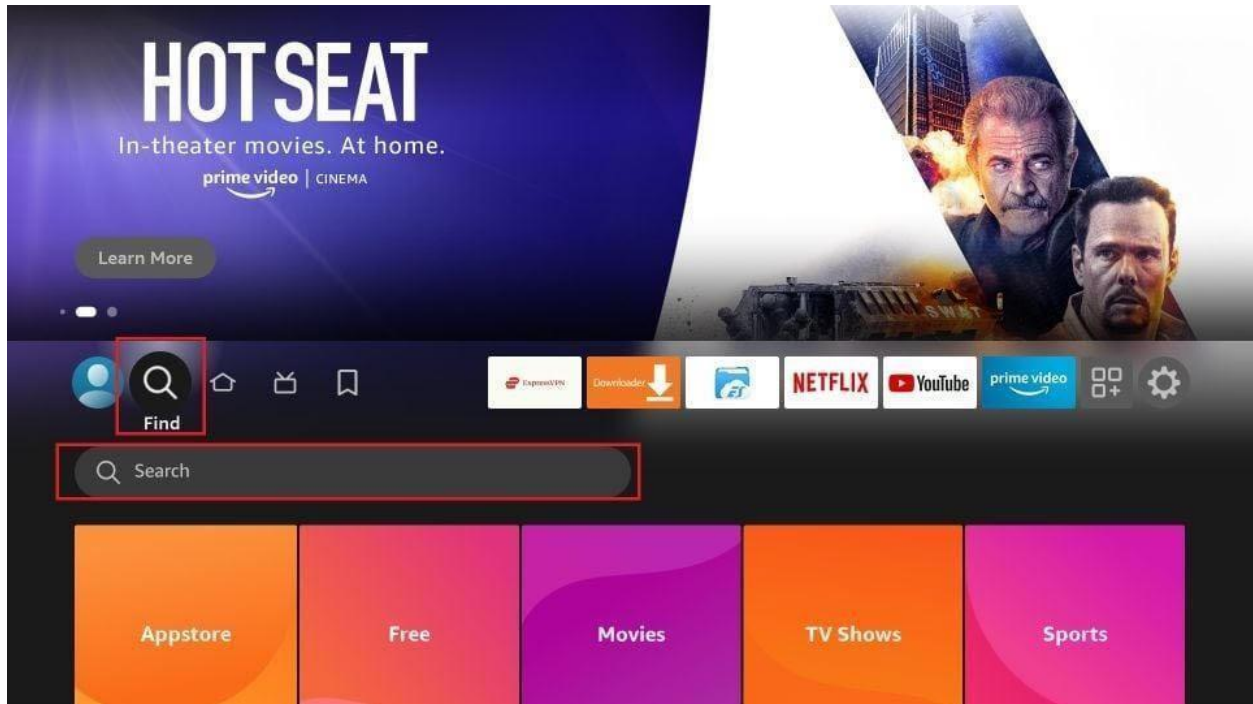

6. Press the back button once or go back to Settings > My Fire TV and you will now see Developer Options.

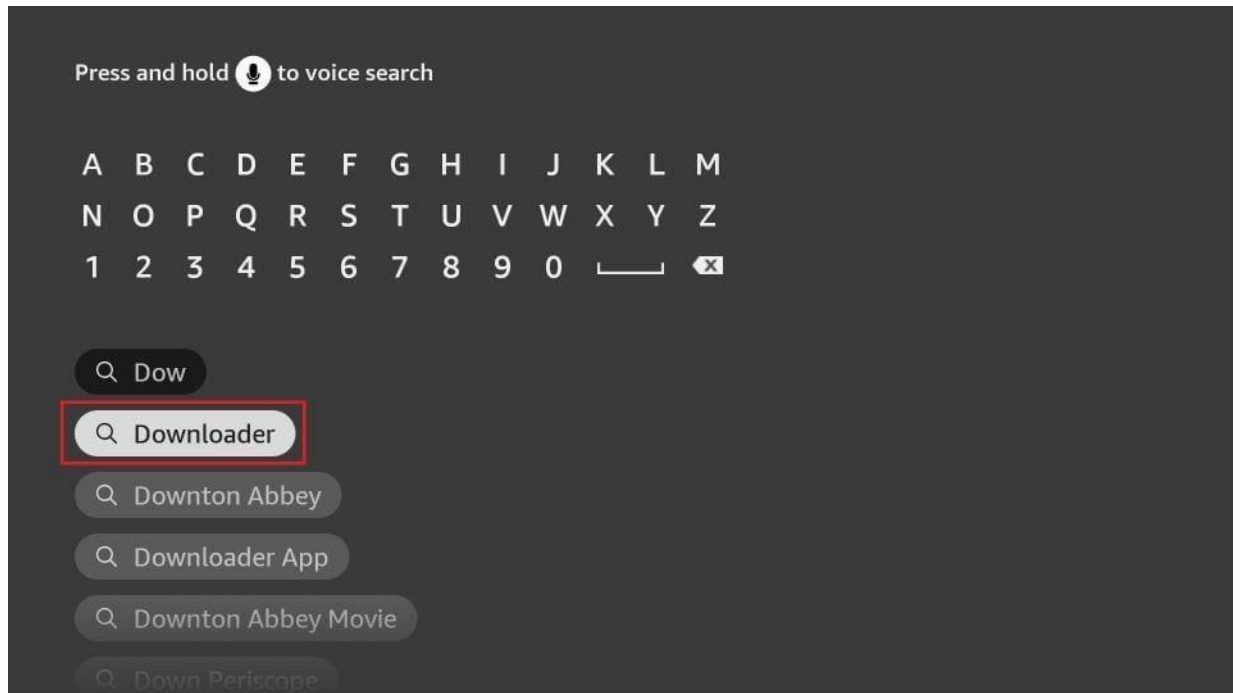

Now you can go into Developer Options and enable Apps from Unknown Sources to sideload APKs on your Fire Stick device.
****

Now It's time to download our IPTV App

1. **Go to the home screen of the Fire TV / Stick if you are already not there.**

2. **Now type in Downloader (without the quotes) using the onscreen keypad. You should see the app suggestions on the list as you begin typing.**
♦ **When you see Downloader on the list, select and click it.**

3. **You should now see Downloader under the APPS & GAMES section. Go ahead and click it.**

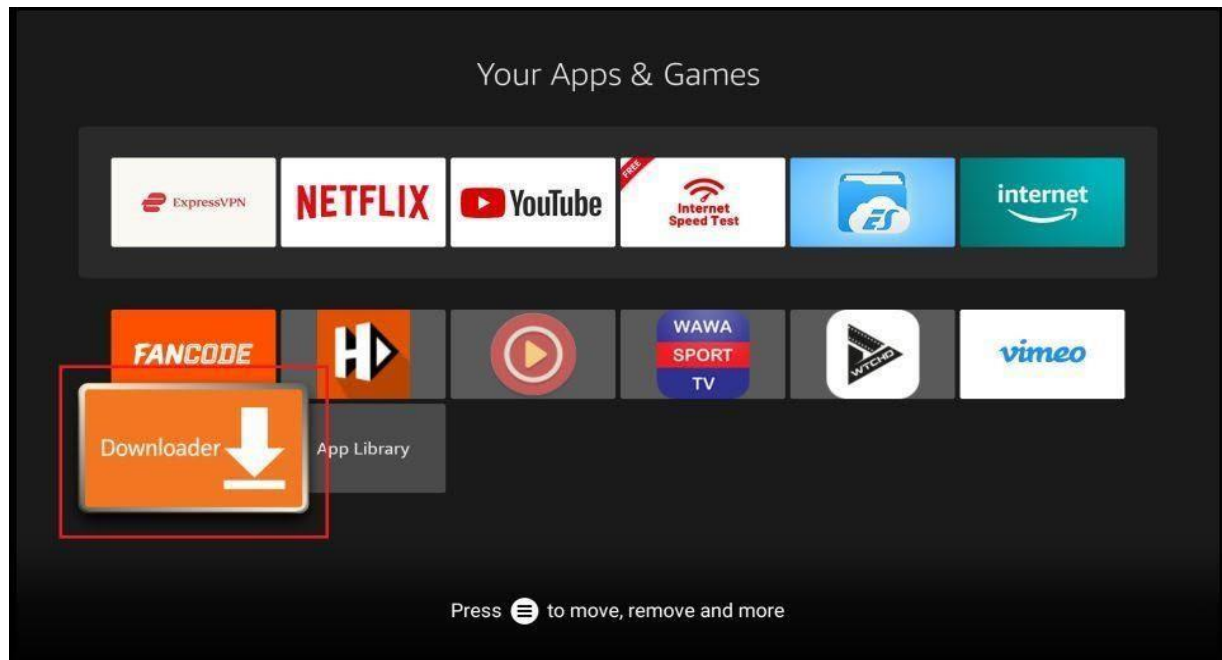

4. **Click the 'Get' or 'Download' button to download and install the app. You should have the app in no more than a couple of minutes.**

Once the app is installed, you can access it from the Your Apps & Channels section (more on it later). To access Downloader from Your Apps & Channels (which is a list of the installed apps on Fire Stick), follow these steps:

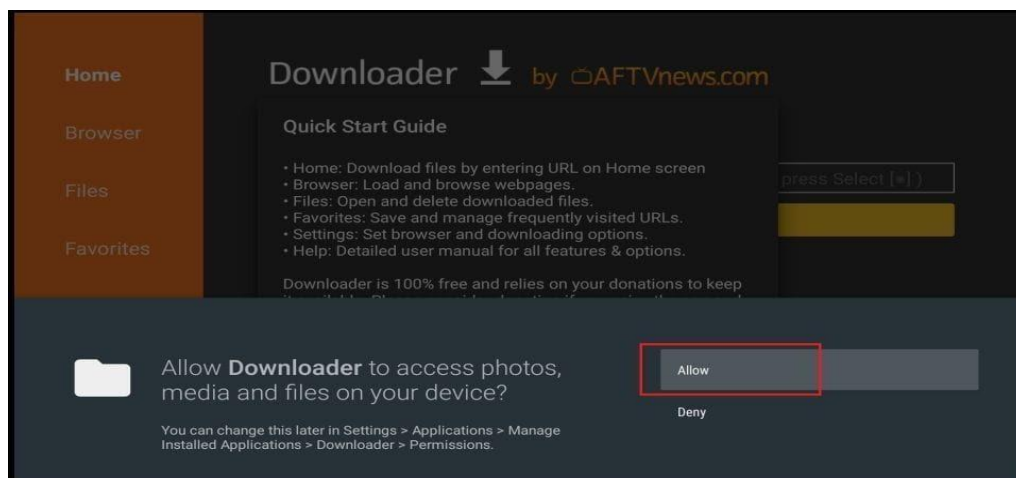

Scroll down and click Downloader
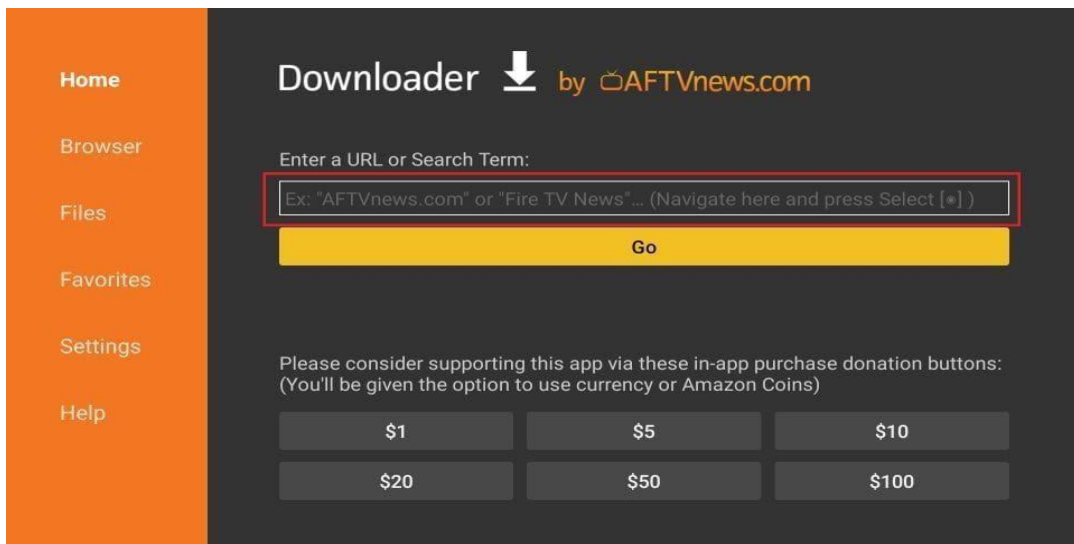

Getting Started with Downloader

- ➢ **When you open the app for the first time, click Allow to grant permission.**

First, navigate to the Home option to directly download our app using a URL or Short Code.

Enter the App Short Code: **912447**

*Click **Go,** and the download will begin automatically.*

*Click **Go** to start downloading our app. Once the download is complete, tap **Install**.*
